Dear Benefactor,

Thank you for your generous donation.

Don Bosco had a very special consideration for his benefactors and said that a person's maturity depends on her/ his ability to say thank you with her/his heart. Thank you, thank you so much!

"For my poor children, always the best of everything." (Don Bosco)

In our Don Bosco schools in Embu and Makuyu we are facing a considerable expense that will keep our hearts turned to Providence for a long time. Respectively 41 and 37 years ago, for the workshops and classes of those Institutions we had chosen the best roofs on the market: asbestos. Today they are still good, but it is known, for sure, that they are harmful to health and therefore we have to change them with considerable cost due to the many thousands of square meters of new roofing and to the cost of disposal.

However, we cannot have doubts and we must move forward because Don Bosco left us not a suggestion, but a command: "For my poor boys, always the best: the best buildings, the best equipment in the workshops, the best teachers...", because his boys had to make a jump that would redeem them and their families from poverty and misery.

Your help is truly much appreciated, because it allows many of our young people to make that jump and find courage and hope for their future.

Thank you from the bottom of my heart also on behalf of Don Bosco.

Fr. Felice
